

To Mayor council and boro of Chesilhurst

On Saturday March 24, 2018 As council representative I attended the Boro of Chesilhurst Drug Alliance health day. We're we had a changing conversation about drugs and their use to both our boro children and their parents and guests. With professorial informative speakers. And how it was very important to our children not to use drugs and to say no to any one offering drugs to them. we made the children aware that the only time to use drugs was when they were sick and the doctor had given medicine to their parents for their use. We also had a presentation by school board president Ms. Maria Littles on earth day were the children and adults all learned about preserving the resources of the earth and for each of us to do our part in protecting the earth. I would like to thank The boro of chesilhurst Drug alliance, Kenny smith and Juanita Presley and all that were involved in the success of the health day event.

In closing

Councilmen Herbert Littles.
